| <p>BASE (1)</p> | <p>TBSP-325 with flange nut ((1)</p> | <p>1/4 Nylon adjustment Glides (4)</p> |

Distribution steps:

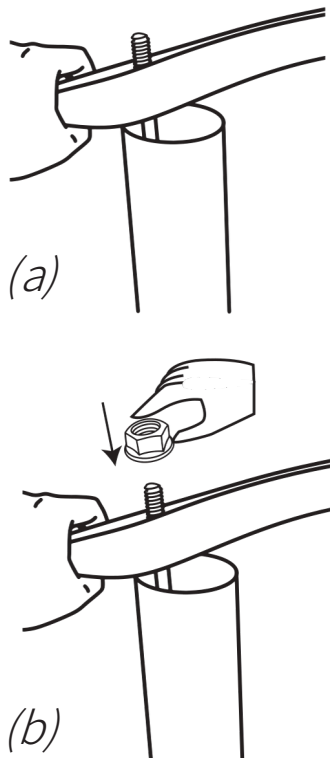

①

Move the welded TBSP-325 with top disc facing down (Side A). Remove the flange nut.

②

Position the cast base onto the rods and fasten it by tightening the flange nuts securely.

③

Attach the glide pads to the base in the correct positions. Once secured, flip the unit over and place it in position.
